### Division of Oil, Gas and Mining

JOHN R. BAZA  
Division Director

March 20, 2015

Christopher Ennes  
Ambro and Son LLP  
3737 West 2100 South  
West Valley City, Utah 84120

Dear Mr. Ennes:

The Division of Oil, Gas and Mining commends Ambro and Son LLP for the reclamation work performed at the Cedarstrom Calcite small mine operation in the summer of 2014. During that time, the old structures at this facility, which could easily be seen from busy Route 68, were demolished and all scrap metal and other forms of debris were removed from the site. Portals located at the mine were backfilled, eliminating public safety hazards. The site was nicely graded and reseeding was done promptly.

The Division nominated Ambro and Son, LLP for an Earth Day award for performing this reclamation work, but, unfortunately, the Board of Oil, Gas and Mining did not select Ambro and Son for the award. Reclaimed mine sites usually have to reach the end of the revegetation liability period to meet the criteria for the award. However, the Division was very impressed with how proactive Ambro and Son LLP was with performing this reclamation work and plans to nominate you once again for this work in the future when all the award criteria are met.

Thank you again for the hard work in reclaiming the Cedarstrom Calcite mine. The Division commends you for your efforts and looks forward to working with you in the future.

Sincerely,

Paul B. Baker  
Minerals Program Manager
